Characteristics

Proxy mechanism

Backrest tilts relative to the seat, following the user's movements. The selected position can be locked. Adjustment of backrest height using a screw. Mechanism available in Lab and Lab RB models.

Base

Black, nylon base is fitted with hard wheels as standard (Lab, Lab Stool) or glides (models with RB footrest).

Seat

Distinguished by its ergonomic shape ensuring comfortable and healthy use in the workplace. Made of non-slip polyurethane, it is easy to clean.

Durable construction

The high quality of the materials used guarantees long and trouble-free use.

RB footrest

Adjustable height. Provides easy foot support.

Lab Stool

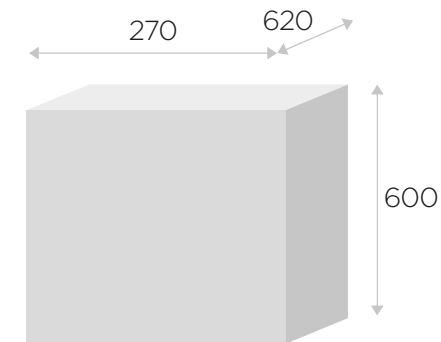

Specialized model dedicated to the medical and industrial sectors. A simple mechanism allowing to adjust the seat.
